

Pre-Operative Testing

All patients having surgery are required to have pre-operative tests performed approximately seven days prior to their scheduled procedure. Patient testing will be available at Quest Diagnostics Germantown located at 2075 Exeter Rd, Suite #40, Memphis, TN 38138 by appointment only. Their office hours are Monday-Friday 7:30am-5:00pm.

Testing will be performed on an appointment-only basis. You are responsible for calling Quest Diagnostics at (901) 755-5656 to schedule your appointment.

Please schedule your appointment for testing one week prior to your procedure.

If you should choose to have pre-operative testing done at your primary care doctor, or other facility, it is your responsibility to ensure that all testing is completed one week prior to your surgery date and that the results are faxed to our office at (901) 761-6929.

The following test are required:

- CBC (Complete Blood Count)
- CMP (Complete Metabolic Panel)
 - Nicotine Test

***Note:** Patients over the age of fifty are required to have an EKG completed at a facility of their choice one week prior to their surgery date. These results should be faxed to our office at (901) 761-6929.

If your surgery is rescheduled, please make certain that the above testing is also rescheduled to accommodate the change.
